

# ROLL TESTS

## Break Away Roll Test

Compare break away force and its resulting deflection in the tire

Loads of 250lbs, 350lbs, 500lbs

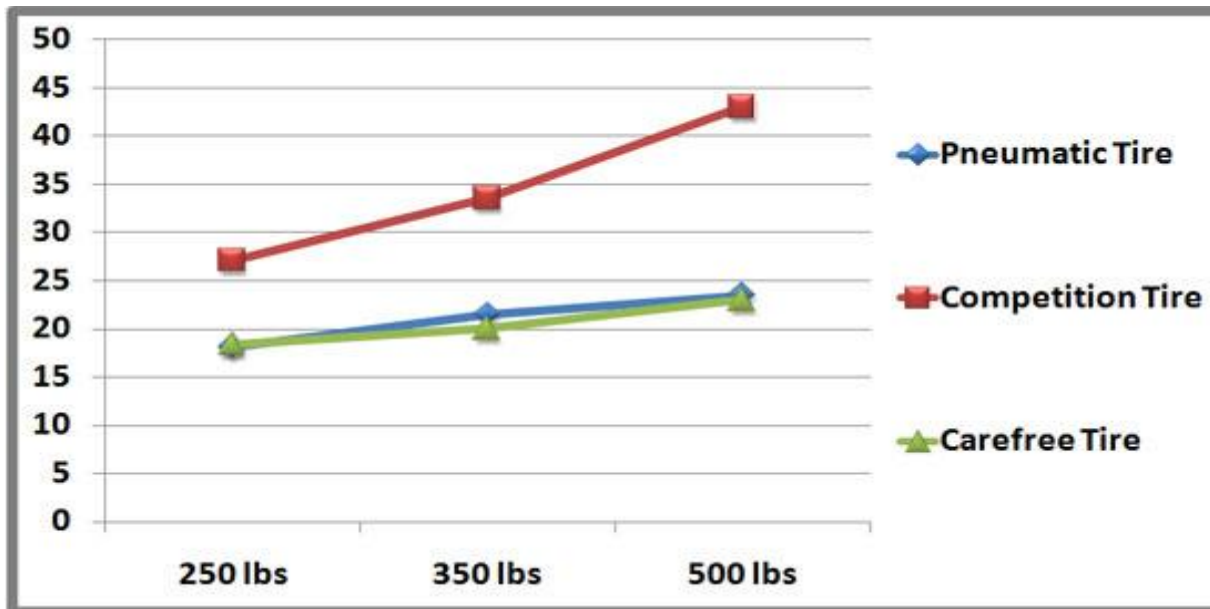

Carefree Tire performed slightly better than the leading fully inflated pneumatic tire brand and drastically out-performed the competitor's version of a Flat Free tire.

## Continuous Roll Force Test

Compare continuous roll force and its resulting deflection in the tire

Loads of 250lbs, 350lbs, 500lbs

Carefree Tire performed slightly better than the leading fully inflated pneumatic tire brand and drastically out-performed the competitor's version of a Flat Free tire.
